# Erratum

---

The July 2010 article by Ilgen et al. (*J. Stud. Alcohol Drugs*, Vol. 71, no. 4, pp. 473-479) contains an error in the last sentence of the first paragraph of the article (p. 473). The sentence should read: “An empirical review of cohort studies found that, compared with the gen-

eral population, the risk of suicide by substance users was increased 9.8- to 13.7-fold, depending on the particular SUD examined (Wilcox et al., 2004).” The article has been corrected on the journal’s Web site ([www.jsad.com](http://www.jsad.com)).
